

Initial Printer Setup

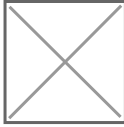

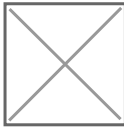

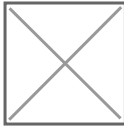

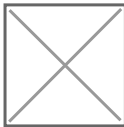

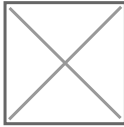

After you unbox your brand new X1 3D printer, you need to go through the initial setup process. Here's how to do it:

The first step is to select your language,

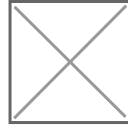

Select your Wi-Fi network. Enter your credentials and after connecting, tap the Next button

<p>Scan the QR Code in Bambu Handy</p>	
<p>Accept the Terms and Conditions</p>	
<p>You can choose to join the improvement program, which can help to improve the printer. Tap Join if you want to help, or Skip if you don't want to join the program.</p>	
<p>Start the calibration process. Tap Next to get started.</p>	
<p>Tap the Calibrate button to start the automated calibration procedure</p>	
<p>The printer will start the calibration procedure. You might hear loud vibration noises. They are normal.</p>	

When the calibration is complete, the following message will appear on the screen

Revision #1
